

PermaLinx by *jBloom*[®]

BANGLE Q&A

IS THE BANGLE HARD TO APPLY?

No. However, it is tricky using the super small screw and wrench. Like with PermaLinx, you will get faster and better as you do them.

ARE THE NEW BANGLES PART OF THE BUY 6 GET 1 FREE?

YES - They are part of this program. They can be bought all bangles or mix and matched with other PermaLinx chain.

HOW IS EACH SIZE ADJUSTABLE?

There are notches to line up to give you different sizes. The first 2 holes are the easiest and best to use. The 3rd notch is very difficult to use. However, with 3 size options the 2 holes should fit most all size options.

DO THE NOTCHES USED TO ADJUST THE SIZE SHOW?

No. All notches not used are hidden in the bangle.

DOES A WRENCH COME WITH EACH BANGLE AND HOW DO I ORDER?

No - You must purchase the wrench separately. It can be purchased on a Designer Order along with your other PermaLinx items or on a Supplies Order. Search Wrench or use CODE: **S-PLWRENCH**.

HOW MANY WRENCHES DO I NEED?

We suggest you have 5+ on hand at most times. They are SMALL and can get lost. PLUS they also can strip if you try to force a screw in the hole.

HOW MANY SCREWS COME WITH EACH BANGLE?

THREE!!

CAN WE BUY EXTRA SCREWS?

YES - we sell a 5pk of screws just like the jump rings. Order Code: **S-PLSCREW**

DO SCREWS COME IN STAINLESS & GOLD STAINLESS

Screws only come in Stainless Steel and they don't show once inserted into the bangle.

DO OUR PERMALINX CHARMS FIT ON THE PERMALINX BANGLE?

YES - all PermaLinx charms can slide on the PermaLinx Bangle. You just slide them on **BEFORE** you close the Bangle. The only exception is the PermaLinx small coin. This will require a new larger jump ring coming soon.

CAN JBLOOM CHARMS GO ON THE PERMALINX BANGLE?

YES - you can attach a jBloom Charm with the NEW spring ring to the bangle. jBloom charms with an old style spring ring will NOT fit on bangle. It is also important to tell customers to take these charms off daily as they are NOT made to be permanent.

CAN WE ADD CHARMS TO A BANGLE ONCE THEY HAVE IT?

Yes - you can add one after the purchase. However, you will need to take the bracelet OFF to add it. You cannot open the ring and put it on as this will damage the ring to open so large.

CAN WE TAKE SPRING RINGS OFF JBLOOM CHARMS TO PUT THEM ON THE BANGLE?

NO - jBloom jewelry (including charms) may not be altered in **ANY WAY**. It is against company policy and will void any warranty.

CAN WE MAIL A BANGLE & A WRENCH TO A CUSTOMER OUT OF STATE?

NO - all PermaLinx items (including bangles) must be applied by the Designer ONLY. This brings value to what you do as a PermaLinx Designer and a great way to recruit as well.

CAN THE PERMALINX BANGLE BE REMOVED FOR SURGERY.

Yes, they can be removed if needed like all PermaLinx. The designer can take them off or they can be CUT off with a metal cutter. Scissors will NOT cut this bangle.
